INTERNSHIP

Cloud & DevOps Intern <i>MSSQURE GLOBAL, Remote</i>	June 2025
– Completed hands-on training in AWS cloud services including EC2, S3, and IAM. – Worked with Git and GitHub for version control and collaboration in real-time repositories. – Automated CI/CD workflows using Jenkins for efficient deployment pipelines.	

PROJECTS

NetflixGPT React, Firebase, OpenAI API Key — GitHub	2026
– Built a Netflix-inspired web application using React, Tailwind CSS, and Firebase, integrating modern frontend architecture with scalable backend services. – Integrated OpenAI GPT API to enable natural language movie search and personalized recommendations, enhancing user experience beyond traditional filtering. – Leveraged TMDB API for dynamic movie data and implemented solutions like backend proxy handling for API access issues, demonstrating practical problem-solving in real-world environments.	
DevTinder React.js, MongoDB, Express.js, AWS	2025
– Created a developer matchmaking platform inspired by Tinder. – Deployed the backend using AWS EC2. – Used JWT for authentication and MongoDB for document-based user data storage.	
Digital MarketYard System HTML, CSS, JavaScript, Java, MySQL — GitHub	2025
– Developed a digital marketplace platform enabling farmers to post products, while administrators monitor listings and assign merchant IDs after the bidding process. – Implemented an admin dashboard allowing controlled updates to approved fields, ensuring data accuracy and secure management.
